PRESS RELEASE

AIRCAT Pneumatic 1057-TH 1/2" and 1077-TH 3/8" COMPACT IMPACT WRENCHES

Designed for Professional Automotive Technicians

Jupiter, FL February 28, 2017: Florida Pneumatic Manufacturing Corporation is pleased to announce the launch of our new Compact 3/8" & 1/2" Impact Wrenches in July 2017. Compact 3/8" and 1/2" impact wrenches have become a staple for professional automotive technicians, and the current AIRCAT Compact Impacts are the most widely used tools today.

AIRCAT Pneumatic 1057-TH 1/2" and 1077-TH 3/8" Impacts

- Weight 2.8 lbs.
- Length 3.85"
- 500 ft. lbs. torque
- 9,000 RPM

The new 1057-TH/1077-TH series is designed to further improve access to confined work areas. This series is 0.6" shorter than our 1055/1075 series, yet it retains 500 ft-lb of torque. The high torque in the smaller package is achieved by a "unique" AIRCAT design air motor and hammer.

This and other AIRCAT tools are readily available from leading Tool & Equipment & Industrial Distributors. For further information contact:
