Press Release

AIRCAT: 1295-XL 1/2" Impact Wrench

Jupiter, FL July, 2015: Florida Pneumatic Manufacturing Corporation will introduce the AIRCAT 1295-XL: 1/2" Impact Wrench in October of 2015. The 1295-XL features a number of unique and patented designs that separates it from all other conventional full size/power 1/2" impact wrenches.

- With an overall length of only 6.6" 1295-XL is more that 1" shorter than other impact wrenches in its class, allowing improved access to tight working areas.
- The 1295-XL motor horse power and 1,295 ft-lb loosening torque matches the very best performing 1/2" impact wrenches.
- The front bushing-hammer cage features " a protected design built in flange" reducing vibration to only 4.25 m/sec²; while increasing the tools life and reliability.
- The "protected design rear motor support" eliminates lateral movement of the rotor, increasing the tools life and reliability.
- The patented "two stage trigger" provided 240ft-lb torque at stage one ; and maximum loosening torque when full engaged at stage two.
- The patented "one click" forward-reverse button provides instant change of direction on-the-fly.
- The combination of the "two step trigger & click forward-reverse button" makes the 1295-XL a true one hand operation tool.
- The customary AIRCAT design comfort handle and internal silencing create optimum comfort and reduce the noise level to 87 d(B)A

The 1295-XL and all other AIRCAT tools are readily available from leading Tool & Equipment & Industrial Distributors.

For further information regarding the AIRCAT 1900-A and other AIRCAT tools please contact:
